01 Sobre FG

/01 About FG

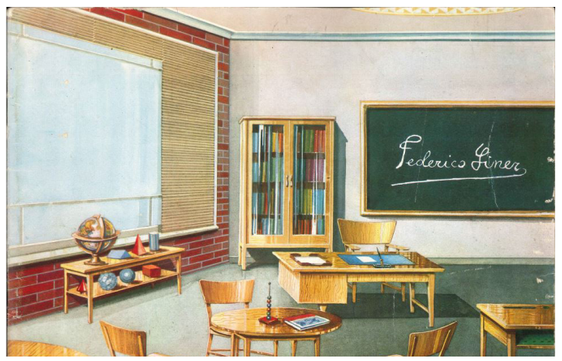

En **FG- Federico Giner**, somos una empresa familiar en su quinta generación que lleva más de 110 años, diseñando y fabricando muebles de calidad, destinados a centros educativos, oficinas y zonas comunes de edificios públicos.

Desde nuestras instalaciones en Tavernes de la Valldigna, (Valencia), España, hemos ayudado a nuestros clientes de todo el mundo, a crear espacios únicos e inspiradores en los que las personas pueden aprender, trabajar y disfrutar.
FG-Federico Giner, fabricación de calidad desde 1910, Made in Spain.

At **FG Federico Giner**, We are a family business company in its fifth generation that has been for over 110 years, designing and manufacturing quality and long lasting furniture, for schools, Universities, workspaces and common areas.

From our facilities in Tavernes de la Valldigna, (Valencia), Spain, we have helped our customers around the world, to create unique and inspiring spaces in whick people can learn, work and enjoy.
FG-Federico Giner, furniture made to last, Made in Spain since 1910.

1910

Federico Giner pone en marcha el primer taller de carpintería de Tavernes de la Valldigna (Valencia), el embrión de un negocio de base industrial que actualmente es todo un referente en el sector de la fabricación de mobiliario escolar e instalaciones. Sus productos siempre se han definido por su calidad, perdurabilidad y funcionalidad.

Federico Giner established the first carpenter workshop in Tavernes de la Valldigna (Valencia), the birth of an industrial based business which is nowadays a benchmark in the manufacturing sector for school furniture and fixtures. Their products are renowned for their quality durability and functionality.

1926

Especialización por el mobiliario escolar

Comienza la participación de Federico Giner en las convocatorias de concursos para suministro de muebles escolares del Ministerio de Educación, un hecho que marcará la especialización de la firma y su trayectoria.

Specializing in school furniture

Federico Giner starts tendering for school furniture contracts with the Ministry of Education, an event which marks the beginning of specialization in the company and its industrial projection.

1975

Llega la homologación escolar

El Ministerio de Educación crea una nueva normalización en la fabricación del mobiliario escolar que la empresa aborda de manera inmediata. Al mismo tiempo, consolida su presencia internacional a través de ferias y certámenes por todo el mundo.

The school endorsement arrives

The Ministry of Education introduces new regulaions to school furniture production which the company immediately adopts. At the same time the company's international presence is consodilated by participating in international fairs and tenders.

1989

El nacimiento de un parque empresarial

Con el crecimiento de la empresa, se construyen nuevas instalaciones y se crea una red de empresas auxiliares que configuran un tejido industrial alrededor de la firma. Esta se apoya en la colaboración de diseñadores externos que aportan un toque de frescura al mobiliario de hogar y educativo.

The birth of a business park

With the growth of the company, new installations are cons- tructed and an auxiliary network of companies is created, which forms an industrial web around the company. This is supported by the collaboration of external designers who bring a fresh approach to school and household furniture design.

1992

Colaboración con Institutos Tecnológicos

Se inicia una estrecha relación con AIDIMA e IBV de Valencia, con el objetivo de no cesar en la investigación y desarrollo en el mobiliario escolar. En estos años, se amplía la oferta con el mueble para Universidad y la fabricación de carros portaequipajes en aeropuertos.

Collaboration with technological institutions

A close line of communication is formed with Valencia AIDIMA and IBV with the aim of continuous research and development of school furniture. During this period the range of products is expanded to include university furniture and airport trolleys.

2023

Un nuevo enfoque

Federico Giner apuesta por la innovación y la internacionalización. Lanzamiento de nuevo catálogo, fruto de constantes inversiones durante los últimos 5 años en colaboración con prestigiosos diseñadores. El objetivo de los próximos años es estar presente en ferias internacionales y seguir innovando con el fin de dar a conocer los valores y atributos de los productos FG fuera de nuestras fronteras.

A new approach

Federico Giner is committed to innovation and internationalization. Launch of a new catalog, the result of constant investments over the past 5 years in collaboration with prestigious designers. The objective of the coming years is to be present at international fairs and to continue innovating in order to the values and attributes of FG products outside our borders.

Calidad y Garantía FG* / Quality and Warranty*

Una inversión en productos FG, es una inversión en calidad que ha sido probada a lo largo de los años y que es respaldada con garantías comprobadas.

Factores a tomar en cuenta:
- Funcionalidad del producto en relación a la necesidad a cubrir.
- Medidas adecuadas al usuario según normativa.
- Acabados y materiales para uso intensivo en espacio públicos.
- Mantenimietos y garantía de reposición.

An investment in FG products, is an investment in quality that has been proven over the years and is backed with proven warranties.

Factors to take into account:
- Functionality of the product in relation to the need to be covered.
- Adequate measures to the user according to regulations.
- Finishes and materials for intensive use in public spaces.
- Maintenance and replacement guarantee.
