Components

Shell:
- 30% recycled polypropylene + 70% virgin polypropylene.
- Manufactured using gas-assisted high-impact polypropylene injection molding.

Metal structure:
- Legs: Steel tube Ø22x1.5 mm. Epoxy paint.
- Spindle support tube: Steel tube Ø50x1.5 mm. Epoxy paint.

Footrest ring:
- Steel tube Ø16x1.5 mm.

Main features

- Sturdy.
- Lightweight.
- Height-adjustable seat via M25 spindle.
- Plastic end caps on the bottom of the structure.
- Plastic closure cap at the bottom of the spindle support tube.
- Stability provided by its five legs.
- Suitable for prolonged use.
- Comfortable and functional design.

Maintenance

- Check the condition of the shell.
- Ensure there are no cracks or dangerous breaks.
- Inspect the condition of the welds.

Cleaning

- Remove dust with a dry cloth or brush. Clean with a sponge or cloth using neutral soap or a mixture of water and vinegar. For ingrained dirt, grease residue, or stains, ammonia can be used.

- Cleaning of the metal structure: Only use denatured alcohol in extreme cases. Never use solvent.
